

Project Initialization and Planning Phase

PocketSmart AI | Team ID: 6ab222a5e880316a482c6374 | Date: 30 September 2026

Maximum Marks: 3

Date	30 September 2026
Team ID	6ab222a5e880316a482c6374
Project Name	PocketSmart AI
Team Members	Joison V, Gurun J, Sanjai Y, Aswarth U, Yaswanth N
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement)

The problem statement focuses on users who need to plan purchases or events within a limited budget and want recommendations without comparing many sources manually.

PS	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A budget-conscious user	Plan home interiors within a selected budget	Prices and options are spread across many sources	Manual comparison takes time and effort	Uncertain about what to choose
PS-2	A person planning a party	Plan food, venue and decoration within budget	Many choices make comparison difficult	Information is fragmented across platforms	Overwhelmed during planning
PS-3	A jewelry shopper	Find jewelry matching an occasion, style and budget	Suitable options are difficult to shortlist	Choice depends on preferences and sometimes outfit context	Unsure which option fits best
